See the Right Picture at Right Time- By TipTop Planet

## **Performance measurable unified communication tool with zero inbox**

Tip Top Mail is a dynamic business email solution for small and big businesses & enterprise organizations. It is a cloud-based architecture and let your data managed by you giving 100 % data privacy and security.

At TT Mail we have recreated a ZERO INBOX with Artificial Intelligence supported Object based communication that threads all the conversation based on object and groups the conversations based on subjects within this object allowing you to get all your messages in one place and extends collaboration with all the participants.

## “Object Driven 21<sup>st</sup> Century Collaboration and Communication Tool”

### Major Functionalities and available unique features within TT MAIL

- One Platform for chat, notification, Mess-mail & Collaboration.
- Unique **zero inbox** communication engine that uses the OGM Object networks. These networks work as a bridge in the whole ecosystem and track all the communications and automatically Threads them by objects and open and close for all users based on Object Status reducing communication load by 50%
- Message **Threading by Objects**
- Conversations **Grouped by Subjects**.
- **Object Driven communication** is precise and no unwanted communication is used for performance tracking.

- Decoupled Data layer with **encryption** gives full data control to organization.
- The analyzer engine real time tracks **the communication performance** by creating effectiveness and efficiency scores.
- One Message and Multiple Mailboxes in place of Multiple message and Multiple Mailboxes this feature reduces data size by 1500% and also give **one version of truth** for all.
- **One click mail Box creation** and one click Mailbox deletion the moment the user is linked to Organization this is automatically done
- **Role Driven mailbox** as messages move to the role in place of forwarding.

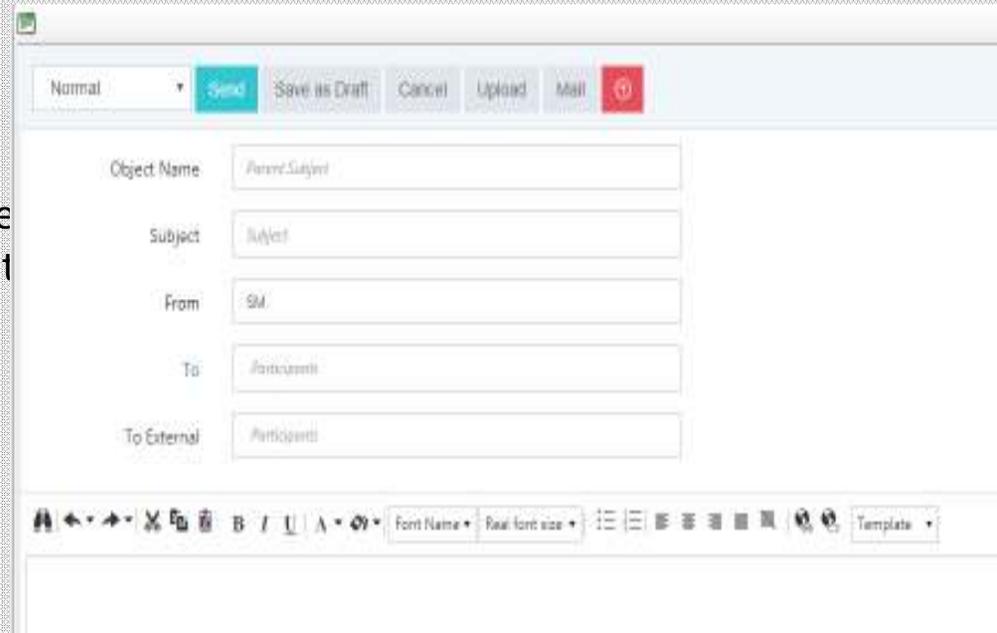

## TT Mail is a complete industrial collaboration and communication tool.

TT Mail smart AI not only organizes and manages your emails but tracks and group all communication using its revolutionary OGM – Objects Network Engine, this means it modulate project status automatically and Reduce Communication Load by 70% and data load by 1500%

TT Mail also

- Syncs with your personal mail
- Automatically sends you reminders of unanswered mail
- Archives and also clean all mail boxes

The unique “**COMPLETE**” feature restricts you from closing the conversations that have not been completed making it easy for you to be effective in closing your communications increasing productivity and as and when the objects are completed the AI automatically retrieves all the message threads related to the object from all mailboxes and archives as a single.

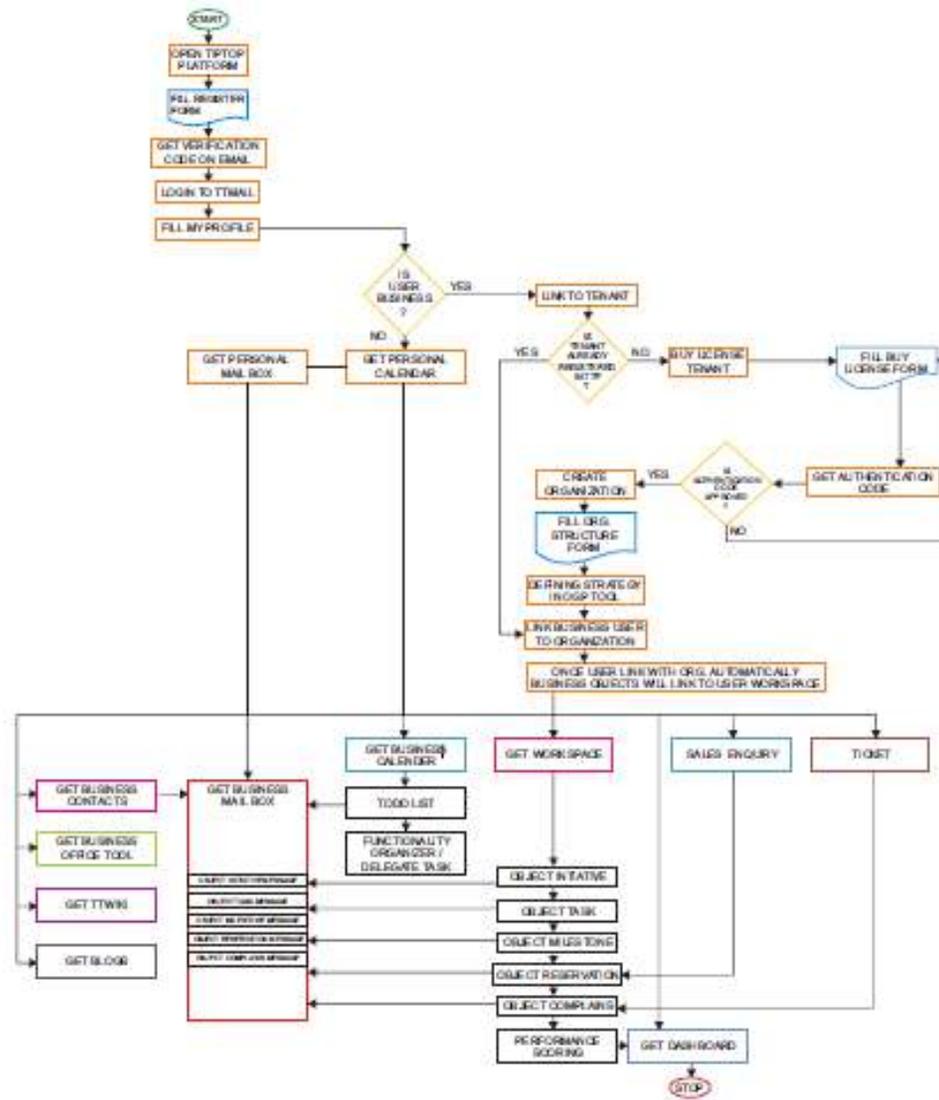

The screenshot displays the TT Mail interface for creating a new message or object. At the top, there is a toolbar with a dropdown menu set to 'Normal', and buttons for 'Send', 'Save as Draft', 'Cancel', 'Upload', and 'Mail'. Below the toolbar, the form fields are as follows:

Object Name	<input type="text" value="Parent Subject"/>
Subject	<input type="text" value="Subject"/>
From	<input type="text" value="SM"/>
To	<input type="text" value="Participants"/>
To External	<input type="text" value="Participants"/>

At the bottom of the form, there is a rich text editor toolbar with icons for undo, redo, bold, italic, underline, link, unlink, font color, background color, font name, font size, bulleted list, numbered list, indent, outdent, link, unlink, and a 'Template' dropdown menu.

# Tip Top Mail Work Flow

## **SINGLE CLICK On Boarding and Off Boarding**

On boarding and off boarding is a cost opening. Every employee communication account organizations use mail, messages, etc. that is the Biggest Risk to organization information Property. As the employee leaves the organization and carry the information in their accounts and devices.

And also the employee even when working, keep storing information in their individual mail boxes, making heap of information that they also can't decide what to do. AUTO Mailbox opening and closing as an account is opened or closed on platform, the account open as you link an employee to the company and the account closes as you delete. One click on boarding and off boarding features

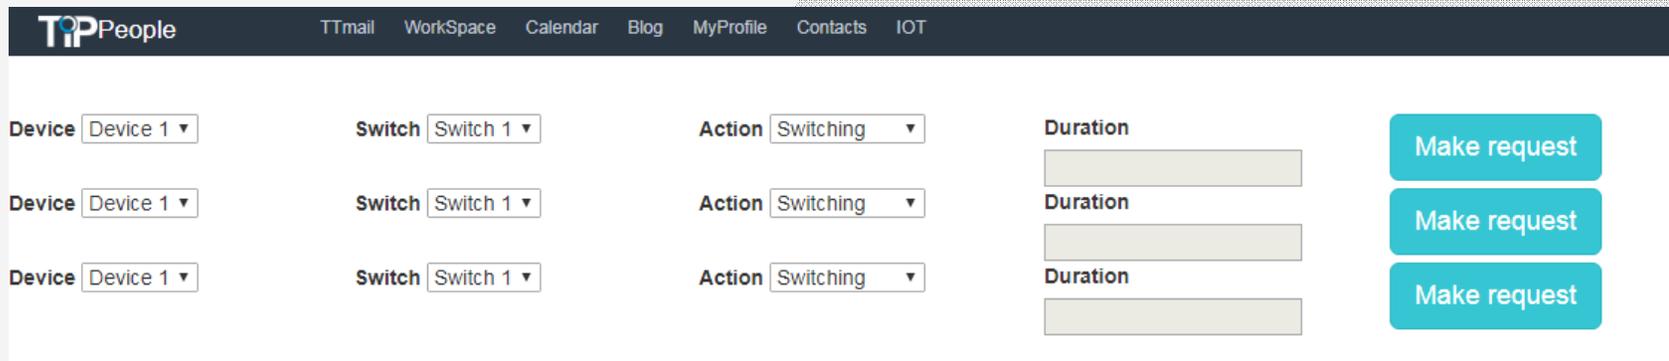

- Reduces IT cost and time in configuring email.
- Also provide a robust ecosystem in securing data and information inside company mailboxes.

## User Profile

At TT mail user also have to create their personal & professional profile which gets updated regularly in its inbuilt CV Builder. It also provides two calendars- Personal and Business unique to each user so that they can organize their tasks.

## TipTop IoT

TT mail is integrated to Tip Top IOT Platform and you can control all your devices through MY Device Page or automate through workspace.

The screenshot displays the TipTop IoT control interface. At the top, there is a navigation bar with the logo 'TIP People' and menu items: TTmail, WorkSpace, Calendar, Blog, MyProfile, Contacts, and IOT. Below the navigation bar, the interface is organized into three rows, each representing a device control. Each row contains the following elements from left to right: a 'Device' dropdown menu (all set to 'Device 1'), a 'Switch' dropdown menu (all set to 'Switch 1'), an 'Action' dropdown menu (all set to 'Switching'), and a 'Duration' input field. To the right of each 'Duration' field is a teal 'Make request' button.

## Webmail Client/ Communication Tool

Tip Top Mail is purely flexible and easy to use with webmail client. One may easily access email, contacts, calendars, chats, notification and many other features from any mobile or desktop web browser.

Unique zero inbox communication engine uses the OGM Object networks, these networks work as a bridge in the whole ecosystem and track all the communications and automatically threads them by objects and open and close for all users based on Object Status reducing communication load by 50%. Users get to communicate with TT Mail not only within the organization but also their Personal Mail.

The screenshot displays the Tip Top Mail webmail interface. The top navigation bar includes links for TTrmail, WorkSpace, Calendar, Blog, MyProfile, Contacts, and IOT. The user's name, Manishsharma, is visible in the top right corner. The left sidebar shows the user's profile and two main groups: 'GKV Group' and 'Personal'. The 'GKV Group' group is expanded, showing an 'Inbox (110)' with a list of folders: Discussion, Activity List, Draft, Sent (105), Close, Completed, and Deleted. The 'Personal' group also shows similar folders. The main content area displays the 'Inbox' with a total of 110 unread emails. A table lists the emails, with the 'TT Advisor' email selected. The table has columns for Author, Object, R, P, F, O, U, and a status indicator. The selected email is from 'HR' with the subject 'TT Advisor'. The email content shows a link to 'http://tiptopadvisor.com/CRM/Default.aspx' and an 'Expand' button.

## Calendar

Tip Top Mail provides the User to keep their work organized and manage tasks with the help of a Calendar. The user also can set reminders for specific tasks. The user has two calendars at a time (Personal & Business linked to Strategy Map, Easy to delegate tasks from your calendar to another falling in the same group.)

The screenshot displays the Tip Top Mail web interface. At the top, there is a navigation bar with the 'Tip People' logo and menu items: TTmail, WorkSpace, Calendar, Blog, MyProfile, Contacts, and IOT. On the right side of the navigation bar, there are icons for home, calendar, notifications, and user profile (Manishsharma). Below the navigation bar, there is a blue header with a hamburger menu icon and the text 'TipTopMail GKV Group'. The main content area is divided into two calendar views: 'Personal Calendar' on the left and 'Business Calendar' on the right. Above the Business Calendar, there are filter checkboxes for TASK, MEETING, TRAINING, TODO, and RESERVATIONS. Both calendar views show a header for 'Wednesday, September 26, 2018' and a time slot grid from 12 am to 5 am. The grid cells are currently empty.

## Task Management (Linked with Calendar's To-Do List)

Tip Top Mail provides the User to keep their work organized and manage tasks with the help of a Calendar. The user also can set reminders for specific tasks. User gets the notification and tasks as To-Do list in his Workspace Task List.

User can complete those tasks and can define the brief description about the task and can forward or respond against that task to authorities or linked groups via message or mail too.

The screenshot displays a task management interface with a sidebar on the left and a main task list. The sidebar includes sections for 'Initiative', 'My Task', and 'To Complete (5)'. The main task list shows several tasks with columns for ParentName, Duration, Status, Assignee, and Dates. A modal window is open on the right, allowing a user to select a reason for delay for a task.

ParentName	Duration	Status	Assignee	Start	End	ER	QR	StatusR	StatusA

Reason: I completed this task but could not tick on time.

## Profile Management

Each user gets their own personal profile which includes his Personal Info, Qualifications, Experience, Reference, & Additional Information. The user can manage his own profile by his own. There is also an added feature of a CV Builder which automatically builds the employee's CV once all the data is entered.

The screenshot displays a web application interface for profile management. The top navigation bar includes 'TIP People' and various utility links like 'Tmail', 'WorkSpace', 'Calendar', 'Blog', 'MyProfile', 'Contacts', and 'IOT'. A user profile card for 'Manish Sharma' is shown on the left, featuring a profile picture and an 'Upload Profile Image' button. The main content area is divided into two sections: 'PRIMARY INFORMATION' and 'SECONDARY INFORMATION'. The primary information section includes a checkbox for 'IsPublic', a 'Title' dropdown menu (set to 'Mr.'), and text input fields for 'First Name' (manish), 'Last Name' (sharma), and 'Email Address' (manishkant.sharma@gmail.com). The secondary information section includes a 'Date of Birth' field (7/23/1983), a 'Gender' dropdown (Male), a 'Marital Status' dropdown (Married), and a 'Local Address' section with dropdowns for 'Country' (India), 'State' (Rajasthan), and 'City' (Jaipur).
